

Commercial
DRSS BRED HEIFER
sale

SISTERS
FROM DIFFERENT *misters*

OCTOBER 25TH - 26TH 2026 ON DLMS
OPEN HOUSE OCTOBER 25TH 12:00-4:00 PM

Welcome to

Welcome to our 2026 commercial bred heifer sale. First off, a thank you to everyone that has supported us along the way. Last years bred female sale was extremely exciting and we were so thankful for everyone that came to bid and buy. That lead into our offering of Purebred Angus heifer calves, followed by our bull sale in the spring. Over the last few years we have played with the format to try and find the perfect fit for marketing the different breeding dates of these heifers. This year for simplicity we have pulled the March bred heifers back into our October sale. These March heifers are as big and well developed as our February females this year and with not requiring some additional days we felt it just made sense to include them all in one offering. A select group of Purebred Angus open heifer calves will also be included in this sale as well. If you have a junior looking for their next show project or are looking to add to your herd, have a look here. Many of the open weaned heifer calves are from our ET program. They trace back to females we sold in last years sale, along with bulls we offered in the spring.

2026 has been another busy year for us. We continue to grow our commercial bred heifer program. The development of including more and more AI mating's into our base cow herd, along with the increased number of embryos we implant each year, just helps to continue to build on the strength and quality of our program.

We spent last fall and into the early part of 2026 sourcing these females. From the buy, to trucking to settling the calves in the yard here at home, we oversaw all aspects of production. The large number of total head gave us the ability to dig deep into the group to find the very best ones to breed. All females were vet inspected prior to breeding. We inspect the heifers for confirmation and make sure to cut anyone with a personality or attitude we would not work with here at our own ranch. Our direct to consumer beef program has been growing over the last few years and the need for cattle to fill that market works extremely well to ensure any heifers that do not meet the quality standards we are searching for in our breeding females will find a home in our direct to consumer program.

Like in past years we have been extremely fortunate to use semen we collected from our own Angus bulls. We did loose our PM Tribute 128'20 to injury nearly two years ago, but we still have semen in the tank from him. This fall we did ship our PayWeight bull after many great years. His last collection this summer gave us an additional 156 units of semen that will be used in the up coming breeding seasons. As always, all the heifers in this years offering are AI bred prior to bull exposure for 55 days. Please note: The heifers that are due for January 7th were only AI bred and never saw any bull exposure. As time moves

on, things change. We were able to source some new and exciting herd bulls that we feel will become the next chapter of our bred heifer program. Watch for more details on them in the days to come.

Thank you to everyone who has supported our operation since the start. We are extremely excited for the future at DRSS. We are positioned to continue to improve the quality of cattle on offer and the quality of service we want to provide to the producers we work with. Late September we will have these females home from their summer grazing. Feel free to reach out at any time with questions or set up a time to come take a tour. We hope to see everyone at our open house Oct 25th. We will have some great smoked DRSS brisket!

Sale Schedule

Welcome to the DRSS Commercial Bred Heifer Sale and Sisters From Different Mistresses Female Sale

Open House October 25th 12:00pm – 4:00pm.
DRSS Beef Brisket Lunch will be served at 1:00pm.

Commercial Bred Heifers will be penned by lot and the purebred Angus heifer calves will be on display.

Open house and cattle viewing hosted at Dun Rite Stock and Stables

Doug Roxburgh – 403-588-5534
Katie Roxburgh – 403-350-2568

Sale Management
Bohrson Marketing Services
Scott Bohrson – 403-370-3010
Darryl Snider – 780-385-5561
Tanner Abraham – 403-896-4364

Delivery
All heifers can stay free of charge for 30 days after the sale date. All heifers staying after the sale must be insured. Heifers remaining after the 30 days will be charged \$4.00/day board.

Delivery will be arranged to central locations in Western Canada. For US customers, delivery will be arranged to central locations in the Northern and Central USA.

Insurance
Kolton Kasur -780-387-8376
All heifers staying at DRSS require insurance.

Hotel Accommodations
Clarion Pointe Hotel – Rimbey Alberta 403-843-3808

Nutrition Program
All females run on a year-round mineral/nutritional program to help with fertility early in the breeding season along with fetal programing closer to calving. A strong healthy calf with a female that breeds back is our goal. We start our nutritional planning prior to seeding a crop. We rotate our fields with Corn silage and a heavy Pea/Soft White Wheat silage. The balance of these two forages helps give us the protein these heifers require along with the total energy as well. A complete balanced mineral program with chelates and elevated selenium round out our program. Read up on our full vaccination program below. We follow up with our Veterinary team every year to make sure we give these females everything they require prior to heading to their new homes.

Herd Health
Commercial Bred Heifer Vaccination Program

Fall 2025	Spring 2026	Fall 2026
On arrival	Pre-breeding	Pregnancy checked by
Bovi Shield	Bovi Shield Gold FP	ultrasound

Sight Unseen Purchase Plan
We offer a sight unseen purchase program and guarantee you will be 100% satisfied with your purchase. Please call Doug to discuss your needs and he will be happy to use his extensive knowledge of our herd and the heifers to select females that will work within your program.

Buy Back Program
A big focus for us has been sourcing more heifer calves each fall. We look for all sizes to fit our different breeding times. We look for nice sorted packages and work closely with producers to put groups together every fall. The main focus is breeding type females that can fill our commercial heifer program. Those who source bulls from us please reach out and let us know what you have to offer.

How to BID ON

1. Website

Visit www.dlms.ca, scroll down sale list to find the sale you are interested in bidding on. Click on the sale listing and you will be taken to the Farm Gate Timed Auction Sale page.

2. Login

After you are at the Farm Gate Timed auction site: farmgatetimedauctions.ca, click the LOGIN/REGISTRATION button.

First time Farm Gate users:

First time users will select the REGISTER button from this page. Fill out the registration form to signup for a free user account and it allows you to select a username and password for use on all Farm Gate Timed auctions. (please note due to some of the text notification features the Farm Gate Time Auction Site requires a new separate account from your DLMS Live sale site) After you create your Farm Gate account you will receive a text message with a pin code to verify your account. On your first login to Farm Gate Timed auctions we recommend you go to your profile and confirm your notifications are set to YES. This allows the site to send you text and/or email notifications when you are out bid and if there is activity on your favorite lots.

Returning Farm Gate users:

If you have used Farm Gate Timed auctions in the past simply enter your username and password to continue. After you have logged in you are able to browse the timed auctions on DLMS Farm Gate Timed Auctions.

3. How to Bid

Now that you are logged in and your account phone number / email is verified you are able to bid on an upcoming sale. Simply find the lot you are interested in bidding on. After you have found the lot there are 2 options for bidding on the lot.

Place Next Bid

to place the next bid on the item, you see the amount in the first box, you simply click the “Place Bid” button and after you review the bid and agree to the terms and conditions your bid will be placed.

Max Bid Amount

to place a max bid you put your max bid in the second box listed as “Max Bid” on the item, and then click the “Place Bid” button and after you review the bid and agree to the terms and conditions, your bid will be placed as the next bid. With the Max Bid placed the computer will then keep you as the high bidder to the max amount you have placed. This can be a great feature if you are not able to give 100% attention to the sale close out and protect your interest so you do not miss out on any lots you want to purchase. The Max Bid amount is completely confidential from the seller.

Example of How the Max Bid Works

If the lot has a \$2000 bid on it and you place a proxy bid of \$3500 into the system, the computer will bid \$2100 for you but if some one else bids \$2200, the computer will again bid for you, this time at \$2300. The system will look after your interest to a maximum of \$3500. If another bidder is on at \$3600, your proxy will no longer be effective and you will no longer have the winning bid on this lot without once again logging in and bidding again or moving your attention to a second lot of interest. Please note that in some cases a lot value can change very quickly if 2 max bids are placed on the same lot competing against each other.

4. Watch List Feature

If you have items in multiple auctions or only a few from the same auction that you want to watch with out having to scroll through the entire list, you can add the lots to your watchlist. On each lot you will see the “eye” button beside the bid button, by clicking this “watchlist” Icon that item is added to your personal watchlist for easy viewing of just your favorite lots in this sale or on the entire site.

5. Sale Ending / Closeout

Most Farm Gate Timed Auction sales close racehorse style with extended bidding.

What is Racehorse Style Close?

Racehorse style sale close is when the entire sale stays open in extended bidding. This type of sale allows you as the bidder to change to a different lot within the same sale if the bidding has gone in to extended bidding.

How will Extended Bidding works?

When we get to the close out end time the clock for close extends with any bid placed with less than 5 min on the clock. This type of extended bidding turns the end time to more of a soft time. Extended bidding allows bidders to compete in lots like a real auction and give all bidders the same time to make a decision. Always follow the clock to see how much time remains in the sale you are interested in.

6. Bidding Close & Follow-up

After the clock has gone to “ENDED” and no bidding has occurred for 5 min the computer will declare the sale finished. Following the close typically within 24 hours of the sale close the sale consignor will contact all winning bidders to arrange payment, transfer of pedigrees and delivery/Pick up of your lot. Or as the winning bidder you can contact the sale consignor / sale manager to confirm payment instructions.

Please make sure that your account info is up-to-date and correct if you are the winning bidder of a lot as this is how the billing is sent to Sale Manager and/or Sale Consignor.

For more info and assistance with bidding contact; DLMS Farm Gate Timed Auctions

Commercial DRSS BRED HEIFER sale

About the Offering

We know that bred heifers are the future of any successful herd, which is why we take great care in selecting only the highest-quality females. Our bred commercial heifers are chosen from reputable producers to ensure consistency, fertility, and strong maternal traits that will benefit any operation for years to come. Each heifer is either home-raised or sourced directly from top-tier, long-time producers, ensuring they come from proven bloodlines with a history of performance and longevity.

To maximize calving success and long-term productivity, our heifers are bred to high-performance, calving-ease bulls, giving you peace of mind when it comes time for them to drop their first calf. These females are designed to be productive, low-maintenance, and profitable—ideal for both commercial and seedstock operations looking to strengthen their cow herd. With their exceptional genetics, structural soundness, and strong maternal instincts, our bred heifers will provide a solid foundation for generations to come.

3 Separate Calving Groups

- First set due January 7th 2027 (AI bred only)
- Second set due February 25th 2027
- Third set due March 15th 2027

Timed AI program.

All three groups were AI'd to PM PayWeight 157'19 or PM Tribute 128'20.

Clean up bulls ran 55 days post AI date with the February and March groups.

The January group is AI bred only with no bull exposure.

Preg checked September 2026

Sale videos and Supplement sheet with groups will be posted the week before the sale.

All heifers are home raised or farm direct sourced from long time top end producers.

GROUPS WILL INCLUDE:

- Straight Angus heifers
- Angus/Maine X heifers
- Simmental/Angus X heifers

This lead off heifer is packed full of dimension while still being super feminine in her design. This heifer gets out and travels extremely well. The maternal grand sire of this calf is Natural Law and has been an exceptional female for us. We did flush this calf's mother to the Judgement bull as well. One of our sale highlights in our 2026 bull sale was a full sib to this female. This calf's mother has a picture perfect udder. Whether you choose to show this heifer or not, this calf will be a front pasture female in your herd for years to come.

The first of three full sisters off the same flush. Depending on your absolute personal preference you could flip any of these three full sisters to lead off the group. Like the lot one heifer, a female with a little more rib shape and dimension. Another Judgement daughter

on the top side. This heifer goes back to one of our most absolute favorite females. The Princess 53'19 female is a daughter of Coleman Bravo. Picture perfect udder. Great hoof shape and travels extremely well. We have flushed this heifer's mother a number of different times to a number of different sires. Each and every time she has hit it out of the park, producing 18-19 freezable embryos. At time of implant into our recip females, the success rate off this heifers mother is higher than anything on farm. Our lead off heifer in last falls sale was a daughter off this heifers mother and sold to our friends at DWAJO Angus of Barrhead AB.

The lone Revival daughter in this years sale. We have been excited to include Revival into more of our cow herd the last few years. A super feminine female. Long bodied, extremely angular in her design. The dam of this heifer is an up and comer in our herd. A daughter herself of our Tribute son 128'20 going back to MC Cumber Tribute 702. An absolute sweet heart to work with on the halter. A maternal sister sold in our sale last fall to our friends at Willow Valley Angus of Rimbey AB.

The biggest mistake we made when using SAV Early Arrival semen was that we didn't source more of it when it was available. We used Early Arrival on both our purebred angus heifers, as well as some of our commercial females. Easy calving while not giving up any performance. This young female just has that brood cow look to her. Take a deep look into her mothers pedigree. She is stacked with some exciting blood lines. Her maternal grand dam is likely to be the next female we start flushing from our program as she has just hit it out of the park year after year. We are excited for every Early Arrival calf on the farm right now.

The lone Shaw Caldwell daughter in this years sale. A heifer that offers an extra rib in length and provides the most extension in her front end. A heifer that is full of muscle yet patterns a little flatter in her shape. I believe that drives her to be one of the most overall feminine females in this years offering. A heifer off just a first calf female.
